ABOUT ME

I am actively seeking a position as a Frontend Developer. I have 1.5 years of commercial experience and developed 10+ projects during my time at the RSSchool course. My primary technology stack includes TypeScript, React and Angular. Currently, I am specifically looking for opportunities focused on React applications.

EDUCATION

Sep. 2012 - June 2016	Belarusian State College of Electronics Technical Programmer
Sep. 2016 - Jan. 2021	Belarusian State University of Informatics and Radioelectronics Engineer Programmer

WORK EXPERIENCE

Jan. 2021 - June 2021	RSSchool Frontend Course. Projects that I've developed during the course you can find here .
Nov. 2021 - Feb. 2022	Aimobi Apps Developed web version of mobile app OnPhone . Worked with React/Redux , used jest and storybook for testing and react-intl for multiple-language support.
Dec. 2022 - Feb. 2024	Targsoft 2 months of experience working on outsourced projects focused on React, along with 1 year of Angular development on an internal project intended for future release. Technology stack included React, Jest, Angular, Angular Signals, RxJS, Docker and Tailwind CSS .
